Tillstånd/General Condition

Fairly good condition. Fairly stable. The vessel shows a lot of cracks that are known to have been there for as long as anyone can remember, but surely they are of different age. None - never the less - of recent age. For the number and extent of cracks see the appended images. Handle cautiously!
Appended images: Img 0074-0075, 0081-0082, 0084-0089 and Glas 34000_542.tif - eleven (11) images all together.
